

Solar Eclipse Program

Longwood Public Library Celebrates The 2017 Solar Eclipse!
Monday, August 21st beginning at 2:00pm

Join us at the Library for an Eclipse Viewing Party! We'll have special eclipse viewing glasses and a speaker so that you can learn more about what you'll be seeing.

ATTENTION BOY SCOUTS AND VENTURERS: We'll also help you earn the BSA 2017 Solar Eclipse Patch! Local Scout Leader Bill Schuessler will be here to assist with patch requirements.

Schedule:

2:00pm:

- Meet in Southside (the magazine area) at the Longwood Public Library. "Eclipse Glasses" will be handed out to everyone who attends while supplies last (one per LPL cardholder).
- View our posters about how to safely view the eclipse.
- Earth Science Teacher, Mr. James Nelson, will give a brief presentation about the solar eclipse.

2:20 – 2:45pm:

- View the eclipse on the Library's terrace using either your eclipse glasses or a "pinpoint projector".
- Enjoy some "solar snacks" while we view the eclipse, which reaches maximum coverage (about 71%) at 2:46pm.
